

HOME VOLUNTEERING

BUSINESS AND CORP.

SOCIAL RESPONSIBILITY

As a small organization that is just starting out, any kind of professional advice and support will be of great help to us in strengthening ourselves as an entity not only on a technical level, but also on a human level. These are some of the demands we currently have:

- Access to corporate and/or company aid programs
- Marketing with a cause: Fundraising for social purposes associated with the sale of company products
- Donation of surplus, renewed material and material assets for social purposes
- Sponsorship agreement for some cause with the organization
- Corporate volunteering
- Visibility of our organization and our volunteer programs on the company's intranet
- Solidarity afterworks

Do you work in any company willing to collaborate?
